Varietal ICE EDITION – ROSÉ DEMI-SEC

Origin Spain (75%), Italy (25%)

From vineyards slightly under clay-limestone soils, the grapes are harvested in Spain and Italy, in partially manual work. The steps for winemaking happens under low temperatures to keep all potential of freshness from the wines.

Winemaking France. Specially elaborated to be enjoyed on rocks!

The wines are initially selected for its freshness, intensity and aromatic puissance. In our cellars in Landiras, near Bordeaux, our winemakers drives the process to bring a sparkling effect of higher relevance. In this way, regardless the melted ice on the wine, JP CHENET keeps its bubbles and its aromas!
